Flex and Select Passes
Boost Your Training Budget with Flexible Prepaid Passes

Flex and Select passes offer discounted training seats that can be used whenever it's convenient for your teams. You don't need to commit to specific classes when you purchase the passes, making them ideal for teams that need flexibility in their training schedules. Plus, you'll receive priority access to certain classes before they are made available to the general public.

Train large or remote teams with flexible schedules

Maximize current training budgets and plan for future budget cycle

Reduce administrative burdens while letting employees choose their own training paths

Flex Pass: Redeemable for any certification course, including Certified ScrumMaster®, Certified Scrum Product Owner®, Advanced-Certified ScrumMaster®, and Advanced Certified Scrum Product Owner®. *$800 a seat for 10+ seats.*

Select Pass: If you don't need advanced certification, these passes are redeemable against any Certified ScrumMaster and Certified Product Owner Classes (excluding Mike Cohn Classes). *$700 a seat for 10+ seats.*

You can also pre-purchase seats for our Better User Stories, Live Online ($599 a seat for 10+ seats) and Accurate Agile Planning classes. ($1,200 a seat for 10+ seats).

You get access to a personalized dashboard where you can manage, assign, and track the progress of your team's training.

> Assign seats to employees or let them choose their own courses
> Track seat availability and monitor training progress
> View and schedule classes with priority access
> Make changes up to two weeks before a live class if needed

The dashboard gives you complete visibility and control over your team's training, while allowing employees to find the courses that fit their schedule.

Key Benefits:

Budget Friendly
Spread training costs with prepaid, discounted seats that can be used across budget cycles.

Flexible Scheduling
Train your teams when it's convenient, without being locked into specific courses or dates when you purchase.

Streamlined Administration
Monitor and track registrations and progress from a central dashboard.
